They report "everything in good condition and the inmates well satisfied" at the Poor House, and recommend "the inauguration of a more substantial plan of improvements by the erection of brick cottages, two or four each year, until the whole is re-lovated, said cottages to be built on a larger plat of land, entirely on the south side of the road which passes immediately through the grounds as at present located, said plat of land to be enclosed by a substantial fence." - New York letter: The Chicago grain gamble continues to work an infinitude of mischief, in various ways to regular trade. Vessels that were promised grain cargoes have been obliged to depart for Europe in ballast. The industries that find employment in loading them are idle; the warehouses and elevators are choked with grain that would be on its way to the English and Continental ports ere this if it was not held at prices so far above the market level as to make shipments out of the question. And the so far above the market level as to make shipments out of the question. And the mousy stringency is aggravated by the withdrawal of large amounts of money from circulation to enable the speculators to carry their load. Under these circumstances, it is suggested by merchants outside of the Ring, that it is about time we had a meeting at the Chamber of Commerce to deneunce the whole system of cornering food products, and to call upon all the commercial exchanges, as well as the banks, to set their faces against it. Legislation is powerless to stopit, but the rings may not be impervious to an indignant public opinion.

The Jenkins Monument.

The monument to the memory of General Micah Jenkins has been completed and was placed upon the base at the marble yard of Mr. E. R. White, on Meeting street, yesterday. It is constructed entirely of Scuth Carolina granite, and is twelve feet in height, including two bases and a shaft. On the second base the inscription "Jenkins" stands forth in bold letters. One side of the shaft is polished. Near the top are two cannon crossed, and beneath them the following inscription in raised letters:
